Step 1. Cut comfortable lenght of nylon thread and thread it into the beading needle. Put stopbead on it. Than put beads E, M, P, M repeatly until you reach desired bracelet lenght.

Step 2. Put both crimp bead and small jump ring on thread. Go back throught crimp bead and M to P. Put M on thread and go throught the second hole of E, put M, thread P, put M and thread the second hole of another E. Reapeat till you reach opposite end of bracelet.

Step3. Take of stopbead. Put both crimp bead and small jump ring on both ends of nylon thread. Than go back to crimp bead. Go throught M and P and than go into last vacant hole of E. Take M, thread P, take M, thread E and reapeat it till end of bracelet. Nylon thread goes out of last E.

Step 4. Thread nylon into next hole of E and go throught the first M as well. Put M, R, M and thread into M in front of following E. Go throught E and again repeat it untill the last E (over all bracelet lenght).

Step 5. Go throught next hole of M, thread next M, put M, R, M on thread and go throught both M and another hole of next E. Repeat it over all bracelet lenght.

Step 6. Hide both ends of nylon thread among beads. Flatten out crimp beads, cut ends of thread. Open both jump rings. Put lobster clasps on one of them and bigger jump ring into another one. Close it again.
